County Study Sewage Trea

The Wasatch County Commission said Monday they would study some preliminary proposals for planning sewage disposal and treatment for all the public and private development around the Jordanelle Reservoir.

Bob Mathis, County Planner, recommended the Commission appoint a committee, with representation from all the developers and the State Division of Parks and Recreation, to study alternatives and make recommendations for disposing of sewage without any on-site sewage disposal in the reservoir area. He said the developers should define the parameters of a sewage disposal plan and determine among themselves what would be fair. He said he was prepared to recommend

Reclamation
State Park
take line, and
park to be
trunkline
